KENT TIRE NEWS

WELCOME TO THE TEAM!

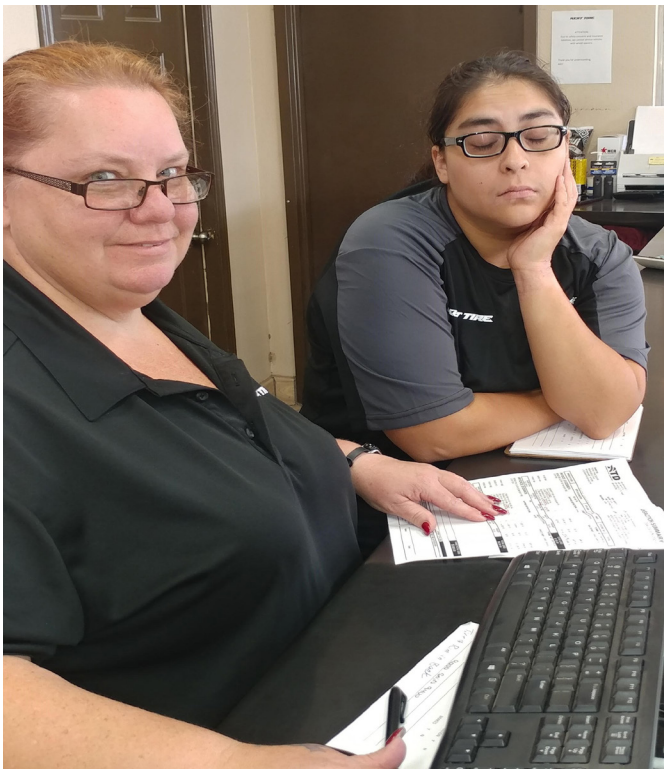

Syllis, one of our newest Team Member of Kent Tire 118 checking a Guests oil!

BTW!

Tire prices are on the rise, due in large part to a combination of increased raw materials costs, higher shipping expenses and "changing market conditions." Currently most tires have gone up in price from 5% to 24% over the last 6 months. Our vendors have reported that even rising cost are on the way. So if you are thinking that you need tires, or your tires are getting there might be time to get some new ones. Supply of tires is getting even more difficult to acquire, and some tires sizes are completely out of stock.

Our Kent Moment for the week goes to Alberto at Rustic 6315:

I work in a call center. Thank you so much for reaching back with me. It seems my husband when over to your store and your employee, which he forgot his name already, but we are so grateful took my spouse wallet and took a big and awesome gesture over-the-weekend and put it in your safe. We're so grateful, God is good!! In a crazy world God has good and awesome people that go above and beyond to help others. This gentleman did that for us. All we can say is thank you, thank you, thank you and may God bless him in all he does. He's a keeper. I want to thank you as well for taking my call during your day off and

getting back with me!! That tells me you are as well as him for taking the initiative to be of concern and to reach out and help us out. Not many managers will do that. I really appreciate you as well. May God bless you and this gentleman for your honesty and going above and beyond for your customer!! Thank you, blessings!

Sincerely,

Cynthia Gomez and Martin Menchaca

MR. PAYROLL/ SAFETY NEWS

FBI warning residents about sugar daddy scams

MIDLAND, Texas (KOSA) - The FBI is putting out a warning on what it calls sugar daddy scams.

According to the FBI, the scams involve suspects offering women allowances in exchange for attention but instead rip them off.

The FBI says the thieves target older women and college students by telling the victims they'll get money in exchange for their friendship.

"What the criminal does is, they'll promise to pay them \$1,000 in this example for their companionship. So what the criminal does, instead of paying them \$1,000, they will go ahead and overpay them \$2,000."

Then they ask the victim to send back the extra money. What the woman doesn't know is that the money was no good in the first place.

"The check that was actually deposited to their account bounced. So in essence, they don't get any of the money, and they end up spending some of their money sending it back to these criminals."

The FBI says people should avoid sharing bank information and using prepaid gift cards to send money to strangers.

Once the money is gone, arresting an online scammer is rare.

"We're dealing with cyberspace; these gentlemen are very savvy. We do have the tools and capabilities of tracking them down, but it is very difficult to do."

Last year there were 940 sugar daddy scams reported in Texas. Seven of those were in Midland.
