TIRES TIRES TIRES

- 1. Keep your tires properly inflated.** Under or over-inflated tires may not accelerate, brake or steer properly. Check your tire pressure at least once a month when the tires are cold, that is, before you head out for a drive. Chances are you'll find that you need to make an adjustment.
- 2. Rotate your tires regularly.** Rotating your tires will extend their life and improve performance.
- 3. Get a wheel alignment.** Every year, or about 12 to 15K, get a wheel alignment to avoid uneven tread wear. Daily impacts such as potholes and railroad crossings, over time, can easily knock your vehicle's tires out of whack.
- 4. Make sure your tires are balanced.** Having unbalanced tires can lead to rapid and premature tire tread wear.
- 5. Frequently inspect your tires.** When you're checking your tire pressure, also visually inspect your tires and be on the lookout for cracks or bulges, objects lodged in the tire, punctures, and uneven tread wear.
- 6. Change your tires according to the season.** Both types of tires are designed differently to match the driving conditions. Using winter tires in the summer or vice versa can wear your tires faster than expected.
- 7. Don't mix and match tires.** While it may seem more cost-effective to replace one or two tires at a time, having mismatched tires can lead to rapid and uneven tread wear or even mechanical issues.
- 8. Replace your tires when needed.** Pay close attention to the tire tread for indication on when to replace your tires. Tires are manufactured with wear bars and when the bar becomes exposed, it's time to replace them.
- 9. Ensure punctured tires are repaired properly.** Depending on the severity of the puncture or size of the foreign object lodged in your tire, it can be easily repaired. However, it needs to be repaired properly. Take it into the mechanic.
- 10. Store spare tires the right way.** Make sure tires are clean, free of gasoline, grease, or any substance that could deteriorate the rubber.

FOOD SERVICE NEWS

Our Huddle House is going to be in a documentary!!! How COOL, right?! The 1st part of a 6 part series was filmed in our store. The documentary is about blue collar entrepreneurs across the country and the struggles that come with owning a business in America. Toby is a frequent Guest in our location. He owns his own roofing company locally and he was there for his part of the documentary.

Thank you to Kim for stepping up on her first week and waiting on all our special Corporate Guests this week!! She had the pleasure to wait on Bill, Adam, Melissa to Fred, and everyone in between! She even got Frank and Alex to sign up to be Huddle House VIP's!!

SAFETY NEWS

Safety Action for the Week – Protect your Ride!

A motor vehicle was stolen every 43.8 seconds in the United States in 2019.

Our cars and trucks are the primary mode of transportation for most of us. They are how we get our kids to school and ourselves to work. What would you do if your vehicle, which is probably your 2nd most expensive possession, suddenly disappeared? I know I would be sick to my stomach. Here are few ways we can lessen the chance of being a victim.

Use common sense when parking and exiting your vehicle:

- Take your vehicle's key; do not leave it in or on your vehicle.
- Close and lock all windows and doors when you park.
- Park in well-lit areas if possible.
- Never leave valuables in your vehicle, especially if they can be seen from outside the vehicle.

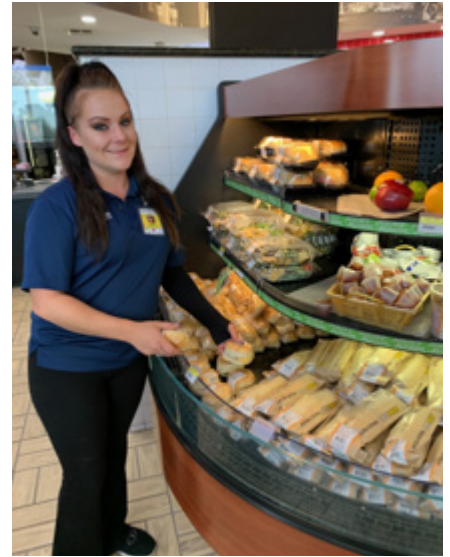

Stay safe. Stay aware. Stay clean.

Until next week,

The Safety Guy
