SAFETY NEWS

Safety Topic “Clutter”

Slips, trips, and falls continues to be among the leading causes of guest and team member injuries. Many of these injuries could be prevented simply through good housekeeping procedures.

Eliminate general clutter, loose cords, hoses, and boxes, along with improperly used floor mats, by:

- Keeping walkways clear of boxes, totes, or other loose items
- Stacking cases of water or product at least 3 high
- Ensure the floor is swept of debris and spills are mopped

Once everything is in its place, it's important to keep it that way through implementing good housekeeping protocols. Team Members should do this throughout their shifts:

- Clean up all spills immediately.
- Plainly mark spills and wet areas before they are cleaned up or dry up.
- Sweep or mop debris from floors.
- Remove obstacles from walkways, and keep them free of clutter.
- Keep working and walking areas well lit.

Maintaining a clutter free store gives a great impression to our guests and more importantly, keeps everyone safe!

Stay safe. Stay aware. Stay clean.

Until next week,

The Safety Guy
