SAFETY NEWS

KEEPING SAFETY IN SIGHT

Certainly, you are tired of hearing about slips, trips and falls? Certainly, you are tired of hearing about Covid? But what else is there right now? Winter is upon us and for all those that live anywhere but West Texas you are getting some of that wet stuff. A couple of weeks back Zena @ HH805 sent a picture where she caught someone doing something right. Team Member **Mersaydies Ellis** knew the situation outside and took initiative to put the wet floor sign in place to warn “everyone” of the potentially wet floor entering our building. This is certainly not by accident. **Remember, accidents are not accidents at all, they are often carelessness!** If we all take this proactive approach to safety, we become a much safer organization.

Part 2 Covid: Really, do we have toooooooo??? I suppose not but, just a reminder, not every symptom of illness means Covid! Please do not assume a co-worker has Covid because they have a symptom. Please continue to do your wellness checks daily and if you have a temperature of 100.4 or above go home and rest, drink plenty of fluids, go get tested if you feel you need to. Pre-Covid days we used temperature as our measurement of when you should return to work. A temperature has traditionally been a sign that you were contagious, once that fever broke, we asked that you wait 24 hours and then return to work when you felt better. We are in a current time when we use an abundance of caution with all symptoms of illness. We ask that you consider the following when exhibiting symptoms of Flu / Covid:

1. Please Monitor Your Temperature
2. Sore Throat
3. Cough / Chest Congestion

The Daily Wellness Check is to help keep the Flu Bug away from us. Many scenarios exist when it comes to exposure and positive tests so reach out to us and we will help guide you through your unique case.

The odds are in your favor for winning the drawing as you have a 1 in 3 chance right now. Full name and location are required when responding please do so by Sunday January 23, 2022, to be eligible. Unless you give me a better Idea next weeks topic is Slips, Trips and Falls. Remember Nothing is Too Small!!!
