KENT KWIK NEWS

This morning we held a Coffee with a Cop event at store 220. We invited Officers and Dispatchers from OPD to stop by, have a cup of coffee and chat with our Guests. Thank you for everything you do for our community.

Jamie, manager of store 315, tells us an awesome story of a dog that saved her life.

"I was having a normal day at 315 and a dog came and was nudging at my arm and wouldn't stop. Come to find out my blood sugar had plummeted and had I not gotten it up I would have blacked out. When the dog left, I had my blood sugar checked and it was down to 80 with a bottle of orange juice. Without it, my Dr. said, I was surely in the red. Had I not been warned by the dog I may have fell on the floor. The dog detected that my sugar was way low and wouldn't stop bothering me until I fixed it."

Thank you, Jamie, for sharing that very cool story.

EPT NEWS

Meet Walter Elsey, Walter has been with Express Petro Transportation for a little over a year. Walter is our driver trainer; he has a tremendous amount of experience that he brings to the table. Walter previously was a business owner, running his own fuel truck. Also, he is a veteran proudly serving his country in the United States Marine Corps. He always brings the kind of professionalism and dedication that you would expect from a United States Marine. Walter never says no when asked to do something, often traveling to other states to train and help.

Walter has been married for 31 years and him and his wife have 3 adult children and all his children are veterans as well. In his free time Walter is teaching himself knife making. His favorite quote is : Just get it done!

FOOD SERVICE NEWS

SAFETY NEWS

Keeping Safety in Sight

Nothing is too Small!

Safety Definition: to ensure safe and healthful working conditions for workers by setting and enforcing standards by providing training, outreach, education, and assistance.

Either the kids are back to school or they will be back in school this week or next. This is a good time to think about your driving habits in general. As most of you know DISTRACTED Driving is a serious issue. You cannot afford to be distracted whilst driving at anytime but now, the school zones on the roadways are busy and you should pay extra precaution when traveling where you know children may be congregating.

- 52 percent of traffic collisions occur within a five-mile radius of home
- 69 percent of traffic collisions occur within a 10-mile radius of home

What is your speed limit? How do you drive in a residential neighborhood? Do you “cut” through to save time? Many more questions can be thought of and addressed when it comes to driving in a residential neighborhood, but if none of these matter to you at least consider the Children?

There are plenty of distractions remember Drive S.A.F.E (Speed, Attention, Fatigue, Emotion)? How many times have you heard: “I never saw them”?

When driving in a residential area you must keep well within the speed limit, remain attentive and be prepared to give the right of way at any time.

Always pay attention!!!

- Children crossing or playing near the roadside on bikes, scooters or with other toys that may cause them to run out into the road
- Obscured driveways from which Children might be playing
- Vehicles parked on both sides of the road and Children running out from between them
- Children on bicycles, skateboarders and in-line skates
- Other small, low-speed vehicles such as scooters, mopeds, and go-carts

The key take away is to PAY ATTENTION. Children do not so it is your responsibility to know the dangers that reside in those neighborhoods.
