SAFETY NEWS

Keeping Safety in Sight

Nothing is too Small!

Safety Definition: to ensure safe and healthful working conditions for workers by setting and enforcing standards by providing training, outreach, education, and assistance.

A New Year; to bring new and exciting things. Most of us bring in the new year with those thoughts. As with any end of year memo we want to remind you to be safe while ringing in the new year. We all know someone who can take us home safely. Uber will have deals for you, you can even call me, and I will help. I would bet I will not be able to drive you home, but I will know someone who can.

Don't be drinkin' and drivin'!!!

According to SafeAuto.com, compared to an average night on the weekend, there are 71% more crashes with drugs or alcohol as a contributing factor between December 31st at 6pm and January 1st at 6am. In just that 12 hour period, alcohol and drug related car crashes skyrocket.
