FOOD SERVICE NEWS

Happy 4th of July from our Rustic Teams! Our Team worked hard to make sure the holiday was fun and memorable for everyone with awesome decorations and delicious hot dogs. They even invited the attached C-Store Teams over for the celebrations! Great job to everyone who made this happen and came together to celebrate our great country.

FOOD SERVICE NEWS

Celebrating Jamie's birthday at Rustic 219. Happy birthday, Jamie!

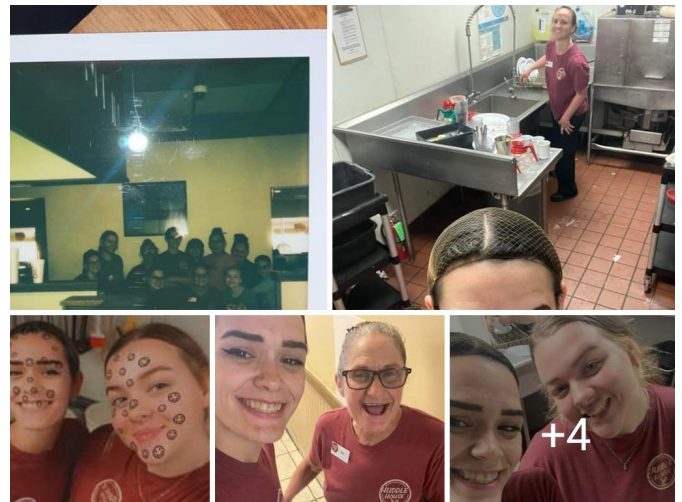

Rustic and Kent Kwik 440 Teams excited to take on the day!

Happy birthday, Sybil from HH 930!

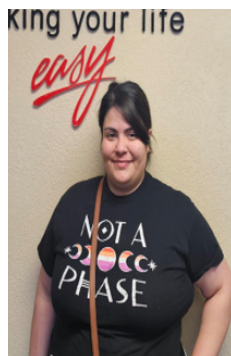

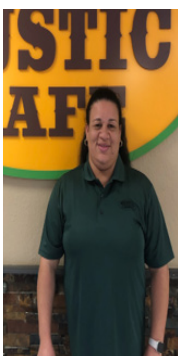

805 recruiting daily to join our excellent Team!

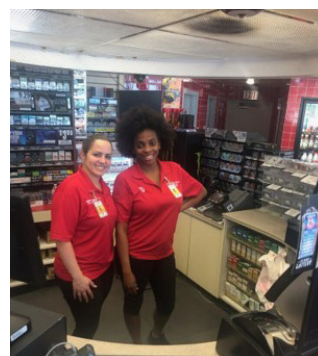

We will miss you Jessi! Thanks for always bringing a smile to our face and making everyone's day better. - Huddle House 805 Team.

KENT KWIK NEWS

Welcome our new Team Members; Mayelin, Julieta and Azreal.

Welcome our new ladies to the 309 Team!

WESTEX NEWS

This week we want to introduce our Chief Medical Officer, Dr. Wilson.

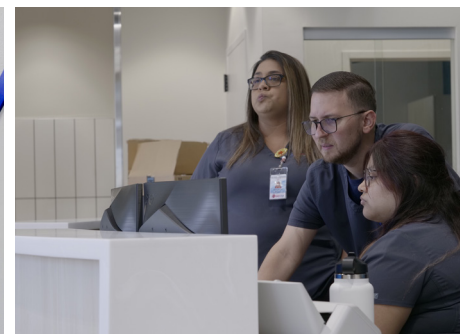

Dr. Lawrence A. Wilson, MD, MBA, FACEP, joined Kent companies as our Chief Medical Officer, full-time, in April 2023. Previously, Dr. Wilson served for twenty-six years at Midland Memorial Hospital, in a variety of management positions. He continues to maintain a personal passion of engaging in the development of value-based healthcare, something he is bringing to the Kent companies and WesTex Urgent Cares.

Prior to moving to Midland, Texas, in 1997, Dr. Wilson received his medical training and worked in emergency medicine with the US Army for fourteen years. In Midland, Dr. Wilson was the owner and the medical director for Midland Emergency Management and was the medical director of the Hospitalist Service at MMH. Through these endeavors he recognized that teamwork and team building

are important tools for improving systems operations, which in turn helps provide safe, high quality medical care. Teamwork is fundamental to helping WesTex Urgent Care continue to thrive in the delivery of Urgent Care medicine.

Now, WesTex's success in becoming the best urgent care delivery service in Texas, is Dr. Wilson's top professional goal! He is looking forward to working with all of you on the path to that success!

Outside of medicine, Dr. Wilson has a daughter living in Charleston, South Carolina, a son living in Midland, and he is a grandfather of three. He and his wife enjoy snow skiing, fly fishing, trail running, beach time with the grand kids, hiking and biking. Also, anytime with a good book is, great for "chillaxin".

Getting ready for the big opening! Some of our WesTex Team were at the new Odessa clinic to test out features before we officially open. The clinic is looking great and the Team couldn't be more excited for the move.

SAFETY NEWS

Keeping Safety in Sight

Nothing is too Small!

Safety Definition: to ensure safe and healthful working conditions for workers by setting and enforcing standards by providing training, outreach, education, and assistance.

Did you know, you can order your first aid supplies via the ZENPUT tablet? Go to the Zenput forms and find C-Store First Aid Replacement Supplies.

You may also submit via the email safety@kentoil.com for replenishment supplies as well.

If you are unsure of all the supplies you need send us an email and we will send you the checklist. Make sure to keep your first aid kits stocked! It might seem like a hassle now, but when an accident does happen you'll be thankful that you're prepared.

CONSTRUCTION NEWS

Lots of work still to do, but 206 is taking shape and moving forward smoothly!

The framing for 9107 is going in. We are excited to watch this one progress.

EPT NEWS

Drinking and Driving

A combination that just does not mix. So, what's a good number? Texas state law will allow for 0.08 Blood alcohol content (BAC) before you are cited with Driving while intoxicated (DWI). Keep in mind that substances other than alcohol will also get you into trouble in this category. If you are a CDL holder, then the legal state limit is 0.04 because truck drivers are held to a stricter standard, as they should be.

If you are an Express Petro Transportation driver your BAC must be 0.00 when reporting to work. There is no wiggle room and there is zero tolerance. For you parents and teens out there the BAC for minors is also 0.00 and a minor will likely be charged with a DUI-Minor offense. The fines can be up to \$10,000 and that doesn't include your legal fees. There is no price on a life and once you take one away you can never give it back. Simply put, it is not worth it. Be responsible, LIVE responsible.
