REVIEWS OF THE WEEK! WESTEX 9109

"My kiddo woke up this morning with a fever and sore throat. I scheduled online and had an appointment within the hour. My check in was quick and the lady was very sweet. The staff in the back were very nice. The doctor was great and nice. The care was just as good. We did swabs and the results came back fast. I think we are in and out within 30 or so minutes. "

"Everyone was great! Sierra at the front desk was quick, Stephanie the MA was amazing, and Stacy the NP was super thorough! 10/10!!!"

Keeping Safety in Sight

Nothing is too Small!

This week is about TOTE safety. Please be aware that TOTES have dangers too. When stacking totes do not stack above waist high, about 12 TOTES should be all.

The danger here is lifting above your head. For fear of rambling on and on and being boring I will establish this fact and leave it. The picture on the Left is Wrong the picture on the Right is correct.
