KENT KWIK NEWS

Over the past month on the Kent Kwik social media pages, we ran a bracket-style competition where different beverages faced off in head-to-head matchups. Each round, Guests voted for their favorite drink through Instagram polls and Facebook reactions, and the drink with the most votes advanced to the next round.

The competition narrowed down to a final matchup between Kent Kwik Water and Dr Pepper — a big moment for our brand. In the end, Dr Pepper took the win, and to celebrate, we hosted a Free Dr Pepper Day across our Texas stores.

Every outcome was completely driven by Guest input, making it a fun and engaging way to see what our audience loves most.

SAFETY NEWS

Keeping Safety in Sight

Nothing is too Small!

Why This Matters

- 3,208 people were killed in distracted-driving crashes in 2024.
- Nine people die every day in the U.S. due to distracted driving.
- Texting takes your eyes off the road for about 4–5 seconds—at 55 mph, that’s the length of a football field driven without looking.

How Team Members Can Stay Safe

- Put It Away: Store phones in the glove box, back seat, or trunk
- Designate a Texter: Let a passenger handle messages
- Pullover: If you must use your phone, stop in a safe location
- Use Technology: Activate Do Not Disturb While Driving

April Is National Distracted Driving Awareness Month

April serves as an important reminder that distracted driving is 100% preventable and deadly when ignored. In 2024 alone, distracted driving claimed 3,208 lives, averaging nine fatalities every day in the United States. Taking your eyes off the road for just a few seconds to read or send a text is equivalent to driving the length of a football field without looking. The message is simple: if you’re behind the wheel, driving is the only job. Put the phone away and keep safety in sight—every mile, every day.
